

Your BharatBenz comes with a pool of best in class features

Safety

- **Rear Camera:** State-of-the-art technology that aids in safer and faster reversing.
- **Driver State Monitoring System (Standard):** Identifies and alerts drivers from falling asleep or being distracted at the wheel.
- **Seatbelt Reminder:** Ensures superior safety to the occupants.
- **Diffuser Tailpipe:** Helps in exhaust temperature management and reduction of dust throw.
- **Daytime Running Lamp:** Ensures vehicle visibility during daytime as well.

Comfort

- **Heating, Ventilation & AC (HVAC):** High throw air conditioning and climate control for all extreme weathers.
- **Air Suspended Seat (Premium):** Ensures maximum driving comfort even on in rugged terrains.
- **Music System:** For entertainment and information on the go.
- **Power Windows:** Windows that can be raised or lowered just with the press of a button.
- **Central Locking:** Locks the whole cabin with just a flick of the driver-side lock handle.
- **Static Steering:** Enables easier maneuverability during tight turns.

INTERWHEEL DIFFERENTIAL LOCK

Avoids the wheel spinning on slushy roads, enabling faster trip turnaround time.

ENGINE OVERRUN BUZZER

The inbuilt buzzer system detects engine overspeeding resulting from sudden downshifting of gears (lower than the recommended shift) and provides an acoustic alarm to alert the driver. This helps prevent engine damage.

3 PIECE BUMPER

In the event of collision, only the damaged part has to be replaced. Thus reducing the maintenance cost.

ENGINE

Designed for higher efficiency, longer life and maximum power with optimal fuel consumption to enable you to maximize your revenues.

ELECTRONIC BRAKE FLAP

Electronically controlled system that accurately controls the exhaust brake flap to ensure efficient thermal management within the engine thereby improving fuel efficiency.

TURBOCHARGER

High boost turbocharger ensures the perfect blend of air and fuel mixture, thus reducing fuel consumption.

G85 WITH IMPROVED GEAR RATIO

Improved gear ratios to ensure higher torque and better gradeability.

LONGER SERVICE INTERVALS

Ensures minimised number of visits to the dealership thus reducing cost of maintenance.

ANTI-ROLL BAR (AS APPLICABLE FOR THE WHEELBASE)

The anti-roll bar increases vehicle stability on application with high centre of gravity. This improves driving confidence and safety especially during cornering at high speeds.

FUEL THEFT PROTECTION MESH

A meshed grill is placed at the mouth of the fuel tank to prevent any fuel theft between trips.

POWER REDUCTION (PR) COMPRESSOR

The new optimized compressor operates based on the engine duty cycle to ensure better fuel efficiency.

LONG LASTING CABIN PAINT

With 800 hours of UV testing done for better cabin paint reliability.

THICKER AND DURABLE FRAME

With 7mm thick frame. With high strength steel (BSK46) for ensuring to periods durability and reliability.

ADVANCED AERODYNAMIC CABIN

Offers the lowest air drag.

GEAR SHIFT ADVISORY

Provides up/down indication of the gear shift to ensure optimal operation of the vehicle.

ENGINE BRAKE

When the engine brake is on, the constant throttle valve and the butterfly valve work in tandem to save fuel, reduce brake wear and make driving in downhill operations safer.

SOFT CRUISE

Improved cruise control that not only ensures better driver comfort but also provides improved fuel efficiency through intelligent gradient monitoring.

TILT AND TELESCOPIC STEERING

The tilt/telescopic feature allows the driver to adjust the steering wheel to suit their driving posture.

Designed to Deliver.
